Anywhere, Anytime. Mobile Water Services.

Veolia Water Technologies maintains a fleet of trailers and containerized water treatment systems for temporary, emergency, and long-term water treatment applications.

Learn More

Mobile / Modular Applications Include:

- Clarification
- Reverse Osmosis (RO)
- High-Rate / Brine Recovery (RO)
- Filtration/Solids Separation
- Chemical Softening
- pH Neutralization
- Polishing Demineralization
- Specialty Ion Exchange

Veolia's Mobile Assets Can Meet Your Planned and Emergency Water Needs

Emergency Rental
Because continuity in the production cycle is essential, Mobile Water Services can be used in emergency situations to avoid unplanned downtime.

Planned Temporary Hire
Mobile Water Services can be scheduled to supplement existing plants during peak times and planned outages.

Long-Term Contract
If a facility needs a containerized or trailer based solution for an extended period of time, Veolia's mobile water service can accommodate long-term water / wastewater treatment needs.

Onsite Operational Services
Veolia on-site specialists are available to assist with the start-up and operation of a mobile service unit. This ensures the mobile unit is operating at peak performance and allows you to focus on more important operational issues at your facility.

Case Study

Learn how Veolia's Mobile Actiflo helped a client **recover $5 Million in coal** after a coal pile runoff pond volume reduction.
